Notes:

*These numbers show how many people participated in the 2020 Primary Election not the number of ballots counted. Ballots returned by mail and in-person ballots can be rejected for various reasons (such as a missing or mismatching signature not being cured, the person not providing proof of ID, etc.). To see results of the ballots that were counted go to: silverstateelection.nv.gov.

*These are unaudited totals of mail ballots received by the close of each business day and are provided by Nevada's county election officials. These numbers will change on a daily basis. Before being counted all returned mail ballots are inspected to ensure the voter information and signature matches the voter registration data on file.

*Counties that show zero In-person voters have either not had any in-person voters or have not reported them to the Secretary of State.
